

▶ CT 334

Fast, 4 currencies, updateable and with auto-detection!

A new generation of detectors is born: smaller, quicker and with automatic currency detection! The **CT 334** checks all Euro notes and is standard equipped with software for 3 other currencies.

The **CT 334** and its rechargeable battery, the sophisticated report function and the update possibility of the machine via USB: we can't make it easier for you!

And of course: 100% result in the Euro counterfeit test!
